- |               |              |                       |
|---------------|--------------|-----------------------|
| • Html - Css  | • Javascript | • SQL - PostgreSQL    |
| • Bootstrap   | • React Js   | • Git                 |
| • Tailwind    | • Next Js    | • Agile Methodologies |
| • Material UI | • Node Js    | • Jest Js Testing     |

## EXPERIENCE

| **Huawei Technology** - Assistant Software Developer - 03/2023 - Present

I developed using React Js framework and Material UI library in HR SaaS project.

I supported the frontend development side in the EBG MetaCRM project. I did the ui and end to end tests. Automation and end to end tests of the codes written in the DCB Payment project.

| **Trendyol Technology** - Associate Software Developer - 05/2022 - 09/2022

I worked as a frontend developer in the Private Label Management team. I designed vendor info dashboard with Vue Js framework technology.

| **Alarko Carrier** - R&D Engineer Intern - 07/2021 - 08/2021

| **Fonetsan Information Technologies** - R&D Engineer Intern - 07/2020 - 08/2020
