## EDUCATION

Dokuz Eylül University Electrical Electronics Engineering  —  *09/2017 - 02/2022*

## EXPERIENCE

**HUAWEI TECHNOLOGY – ASSISTANT SOFTWARE DEVELOPER**  —  *03/2023 - PRESENT*

I am developing in HR SaaS project using React Js framework and Material UI library.

In the EBG MetaCRM (migration) project, I support the frontend development side. At the same time, I do UI and e2e tests of the components. In addition, I do pipeline controls and deployments of components to test and production environments in the same project.

**TRENDYOL TECHNOLOGY – ASSOCIATE SOFTWARE DEVELOPER**  —  *05/2022 - 09/2022*

I worked as a frontend developer in the Private Label Management team. I designed vendor info dashboard with Vue Js framework technology.

**ALARKO CARRIER – R&D ENGINEER INTERN**  —  *07/2021 - 08/2021*

**FONETSAN TECHNOLOGIES – R&D ENGINEER INTERN**  —  *07/2020 - 08/2020*
